MEMORANDUM

TO: ALL STATE AGENCIES

FROM: Ellen Feaver  
Director

*Ellen Feaver*

DATE: December 30, 1986

SUBJECT: STATEWIDE COST ALLOCATION PLAN FOR FISCAL YEAR 1987

Attached is a copy of the approved Fiscal Year 1987 Montana Statewide Cost Allocation Plan (SWCAP). This agreement summarizes agencies' indirect costs associated with State service agencies. Montana's SWCAP consists of two sections.

Except for interest charges, Section 1 costs are for services which are provided without charge to the recipient agency. Examples of Section 1 costs are the Purchasing Division, Department of Administration and the Office of Budget and Program Planning. The Section 1 costs must be included in your Fiscal Year 1987 indirect cost proposal. Upon receiving a reimbursement for indirect costs of federal grants and contracts, all agencies must determine the amount attributed to costs included in Section 1 of SWCAP and deposit that amount in the General Fund (see MM 2-87-3 for accounting procedures).

Section 2 costs are for services provided with an interagency charge or billing. Examples of Section 2 costs are the Department of Administration's Information Services Division and Publications and Graphics Division. Federal regulations state that certain Section 2 charges (e.g., interest expense) are not allowable for reimbursement from federal grants. Previously, SWCAP's Section 2 narrative included interest percentages to be excluded by agencies when preparing agency indirect cost proposals. Starting with SWCAP 87, interest expense billed by the Department of Administration's Information Services, Telecommunications and Publications and Graphics Divisions will not be addressed in Section 2, but rather will be allocated as a negative Section 1 cost. The interest charges will be offset by Section 1 costs that could have been allocated to these operations and recharged to other agencies, but were not. Thus, the SWCAP summary total for each agency will reflect the correct amount for allowable costs (i.e., interest percentages will no longer have to be backed out of Section 2 costs for the three operations mentioned). Also, please note that Comprehensive Liability Insurance is now a direct cost and included in Section 2.

See MM 2-87-3 for additional information on federal indirect cost recoveries. If you have any questions regarding SWCAP, please call the Accounting Division at 444-3092.

COST ALLOCATION AGREEMENT  
STATE AND LOCAL GOVERNMENTS

## STATE/LOCALITY:

State of Montana  
Dept. of Administration  
Capitol Building  
Helena, Montana 59601

DATE: November 26, 1986

FILING REF.: The preceding  
Agreement was dated  
July 31, 1985

The costs approved in this Agreement are for use on grants, contracts and other agreements with the Federal Government subject to the conditions in Section III.

---

SECTION I: COSTS DISTRIBUTED THROUGH Statewide COST ALLOCATIONS

---

The central service costs listed in Exhibit A, attached, are approved on a fixed basis and may be included as part of the costs of the State departments/agencies indicated during your fiscal year ended June 30, 1987 for further allocation to Federal grants, contracts and other agreements being performed at respective State departments/agencies.

---

SECTION II: COSTS DISTRIBUTED THROUGH BILLING MECHANISMS

---

In addition to Section I, which provides for services furnished but not billed, the services listed below are furnished and billed to State departments/agencies:

1. Information Services Division
2. General Services Division
3. Publications and Graphics
4. Mail and Distribution
5. Telecommunications
6. Records Management
7. Central Stores and Surplus Property
8. Public Employees' Retirement System
9. Teachers' Retirement System
10. Automobile Insurance (Tort Claims Division)
11. Comprehensive Liability Insurance (Tort Claims Division)
12. Department of Highways' State Motor Pool
13. Division of Workers' Compensation
14. Office of Legislative Auditor
15. Office of Attorney General
16. State Auditor's Office - Central Payroll
17. 2% Building Use Allowance - Capitol Complex

Direct charges from the above centers will be billed in accordance with rates established by the State and included in the records of the operating department/agency responsible for providing services.

AGREEMENT November 26, 1986

---

SECTION III: CONDITIONS

---

The amounts approved in Section I and the billings for the services listed in Section II are subject to the following conditions:

- A. LIMITATIONS: (1) Charges resulting from this Agreement are subject to any statutory or administrative limitations and apply to a given grant, contract or other agreement only to the extent that funds are available; (2) Such charges represent costs incurred by the State/locality which are legal obligations of the State/locality and are allowable under OMB Circular A-87; (3) The same costs that are treated as indirect costs are not claimed as direct costs; (4) Similar types of costs are accorded consistent accounting treatment; and (5) The information provided by the State/locality which was used to establish this Agreement is not later found to be materially incomplete or inaccurate.
- B. ACCOUNTING CHANGES: This Agreement is based on the accounting system purported by the State/locality to be in effect during the Agreement period. Changes to the method of accounting for costs which affect the amount of reimbursement resulting from the use of the Agreement require prior approval of the authorized representative of the cognizant agency. Such changes include, but are not limited to, changes in the charging of a particular type of cost from an allocated cost to a billed cost. Failure to obtain approval may result in cost disallowances.
- C. FIXED AMOUNTS: If fixed amounts are approved in Section I of this Agreement, they are based on an estimate of the costs for the period covered by the Agreement. When the actual costs for this period are determined, adjustments will be made to the amounts of a future year to compensate for the difference between the cost used to establish the fixed amounts and actual costs.
- D. BILLED COSTS: Charges for the services listed in Section II will be billed in accordance with rates established by the State/locality. These rates will be based on the estimated costs of providing the services. Adjustments for variances between billed costs and the actual allowable costs of providing the services, as defined by OMB Circular A-87, will be made in accordance with procedures agreed to between the State/locality and the cognizant agency.
- E. USE BY OTHER FEDERAL AGENCIES: This Agreement was executed in accordance with the authority in OMB Circular A-87, and should be applied to grants, contracts and other agreements covered by that Circular, subject to any limitations in Paragraph A. above. The State/locality may provide copies of the Agreement to other Federal Agencies to give them early notification of the Agreement.

CERTIFICATION BY STATE BUDGET OFFICER OR OTHER RESPONSIBLE  
STATE OFFICIAL - STATEWIDE COST ALLOCATION PLAN

I hereby certify that the information contained in the Montana Statewide Cost Allocation plan for the fiscal year ending June 30, 1987 is correct and that the State of Montana has authorized me, as its representative, to file this plan. I further certify that a consistent approach has been followed in treating a given type of cost as direct or indirect, and that in no case have costs charged as direct to federal programs been included in the indirect costs reflected in the plan which I have submitted.

The Accounting Division maintains, operates and provides enhancements to the computer-driven Statewide Budgeting and Accounting System (SBAS). SBAS is an accounting system used by all State agencies (including higher education units) to satisfy their accounting and budgetary tracking needs. In addition to monitoring the system, technical and financial assistance is provided to the user agencies in the form of training and a review of documents processed. SBAS outputs daily control and monthly financial reports which are promptly distributed to the users. From the year's data accumulated by SBAS, the State's Comprehensive Annual Financial Report is prepared and published. Because all monies (including federal money) coming into or going out of the State's system goes through SBAS, the costs of the Accounting Division have been distributed to all State agencies.

The Personnel Division implements and administers the provisions of the State Classification and Pay and Public Employees Collective Bargaining Acts. This division is designed to provide State government with a comprehensive program of personnel administration including classification, labor relations, employee relations, pay and benefit administration, training and the promulgation of personnel rules and policies dealing with recruitment, selection, affirmative action and other personnel-related matters.

All functions and services performed by the Personnel Division benefit all departments of the State. Federal programs are benefited because State employees are hired to work in these programs. Therefore, the costs of the Personnel Division have been distributed to all State agencies.

Cost are allocated on the basis of full time equivalent (FTE) employees.

The Treasury Bureau has responsibility for the custody and accountability of all moneys and securities belonging to or held in trust by the State of Montana. The Bureau pays agencies' warrants, keeps an account of all moneys received and disbursed, reconciles the balances in the depository banks to the Statewide Budget and Accounting System each month, makes payments on the State's bonded indebtedness and purchases bonds for early redemption at an agency's request. Any money related to federal projects must be accounted for in the State Treasury.

Costs are allocated on the basis of the number of warrants issued for each agency during fiscal year 1985.

The Office of the State Auditor issues and mails all state warrants, replaces lost or damaged warrants and stores cashed warrants. The Central Payroll System is also operated by the Office of the State Auditor.

Non-general funded agencies are directly billed for Central Payroll costs and are included in Section II.

\*The State Auditor's Central Administration Program provides administrative services necessary for the State Auditor's Office. Operating costs of this program are prorated to the Office's other programs based on their operating costs.

The Office of the State Auditor issues and mails all state warrants, replaces lost or damaged warrants and stores cashed warrants. General warrants include all-purpose, emergency and welfare warrants.

Costs are allocated on the basis of the number of general warrants issued for each agency.

\*The State Auditor's Central Administration program provides for administrative services necessary for the State Auditor's Office. Operating costs of this program are prorated to the Office's other programs based on their operating costs.

The Office of Budget and Program Planning (OBPP) assists the Governor in the planning, preparation and administration of the State budget; the development and evaluation of alternative program plans for the provision of State government services; and the examination and improvement of methods of providing services to the citizens of the State of Montana. OBPP reviews the total organizational structure of the Executive Branch; makes recommendations on the transfer of functions between departments or the elimination of unnecessary functions; and formulates and monitors policies in areas of management concern. OBPP also prepares and monitors estimates of revenues.

Allowable costs were determined using two calculations. OBPP had eight budget analysts in fiscal year 1985. Each analyst approximated the percentage of time he spent on his assigned agencies throughout the year. Based on these percentages, each analyst's operational expenditures were allocated to their respective agencies (\$301,724); 40% of all remaining OBPP operational expenditures were allocated to each agency using the same method as the previous calculation (\$165,860).

\*Nonallowable operational funds consist of agency indirect costs and 60% of non-analyst related expenditures.

The Intergovernmental Review of Federal Programs of the Office of the Lieutenant Governor is responsible for fulfilling the requirements of Presidential Executive Order No. 12372 entitled "Intergovernmental Review of Federal Programs" and the State's Federal Assistance Management Act.

Costs are allocated on the basis of the number of Federal assistance requests originating in each agency. Based upon the percentage of Federal assistance requests to total State and non-State activity performed by the Lieutenant Governor's Office, the allocable costs were immaterial. Therefore, distribution of costs to agencies will no longer be included in this Statewide Cost Allocation Plan.

The Commissioner of Higher Education's Office provides academic planning and curriculum review; makes budgetary recommendations and provides for a budgetary review; performs facilities planning and makes recommendations; sets policies and procedures relating to labor negotiations; and maintains and provides legal services for the Montana University System.

Allowable costs for federal projects not relating to research consist of those items directly attributable to the administration of the University System. One quarter of the Commissioner's salary and one half of the Community College Coordinator's salary are reflected as not allowable.

It has been determined that \$162,241 of the Commissioner's Office costs benefit research activities and \$581,306 benefit non-research activities. The research allocation shown in the summary table below represents the total allowable costs associated with university research activity.

The cost distribution is based on each university unit's total operating costs. The research allocation is based on each unit's unrestricted and restricted fund expenditures.

STATE CENTRALIZED SERVICES BILLED DIRECTLY TO AGENCIES

DEPARTMENT OF ADMINISTRATION - Information Services Division

The Computer Services Bureau and the Systems Development Bureau of the Department of Administration satisfy the data processing needs of most State agencies on a centralized basis.

A cost accounting system has been developed over the past several years to provide funding for the program by charging for services performed. There are four cost centers used for determining the amount chargeable to agencies for services:

1. Personal Services: Services performed by an employee in which no equipment is required, e.g. programming, systems analysis, clerical, etc. Rates are determined from direct salary costs and indirect overhead costs.
2. Processing Services: Services performed by an employee on which data processing equipment is used, e.g. keypunching, computer processing, etc. Rates are determined from direct salary costs, indirect overhead costs, equipment costs and supply costs.
3. Supplies: Data processing cards, continuous forms, computer ribbons, magnetic tape, etc., which are used directly to produce data for a user are charged to the user on the basis of direct cost plus indirect overhead costs.
4. Equipment: Charged directly to the user when it is installed for their use only.

Because interest costs are not allowable, an adjustment to total data processing costs must be calculated prior to determining the indirect cost rate.

Any over- or under-recovery is applied to the next year's expected expenditures and is included in that year's billing rate.

DEPARTMENT OF ADMINISTRATION - General Services Division

The General Services Division of the Department of Administration provides building and grounds services to various state agencies who occupy State-owned buildings. These services include utilities, janitorial services, security services, air conditioning, building and grounds maintenance and other related services. The amount charged each agency is based on square feet of space provided. This charge is uniform for all State agencies using the service and is set by legislative appropriation. The division also charges separate amounts for amortization. The 2% building use allowance is not billed and must be added to the square footage rate. This use allowance varies from building to building as shown under Attachment A.

Any over-recovery at the end of the year is returned to the agencies on a percentage basis relative to the amount of square footage the agency occupies. If there are any under-recoveries the Legislature will adjust the charge per square feet. The increase will be reflected in future years' billing rates.

DEPARTMENT OF ADMINISTRATION - Publications and Graphics Division

The Department of Administration provides publication and graphic services on a cost recovery basis. These services include duplicating, quick copy services, photocopy services, graphic arts, commercial arts, typography, forms design and supply, publication planning and printer coordination.

Any over- or under-recovery is applied to the next year's expected expenditures and is included in that year's billing rate.

#### DEPARTMENT OF ADMINISTRATION - Mail and Distribution

The Department of Administration provides mail services to State agencies. The U.S. Postal Service pays the Department for handling incoming postage mail, and the Department bills agencies for delivery of "deadhead" mail between agencies on the basis of time/motion studies based on volume of mail, handling time and miles traveled. Annually the overhead rate is reviewed. At this time, any over- or under-recovery is applied to the next year's expected expenditures and is included in the new billing rate - actual cost plus overhead rate.

#### DEPARTMENT OF ADMINISTRATION - Telecommunications Division

The Department of Administration has centralized the communications function for State government. Agency telephone billings are based on that agency's actual usage. Administrative costs are prorated based on time units of utilization. Rates for the Network System and equipment are adjusted on a regular basis. The nature of telecommunications has been that only increases in rates have occurred. Therefore, under-recovery is included in the adjusted rate and is applied to the next billing.

#### DEPARTMENT OF ADMINISTRATION - Records Management

Records Management was established for the purpose of management, storage and retrieval of state agency records. The cost of operating this program is assumed from direct charges for microfilm processing and storage of State records. Microfilming costs are based on actual costs of each requested job. Records storage is based on a cubic foot charge per month. Any over- or under-recovery is applied to the next year's expected expenditures and is included in that year's billing rate.

#### DEPARTMENT OF ADMINISTRATION - Central Stores and Surplus Property

The Central Stores Division of the Department of Administration was initiated on June 1, 1980, to allow State agencies to order office supplies, continuous forms and fine paper directly from a competitive source of supply offering weekly delivery. The operation assists agencies in reducing their office supply inventories. The Bureau operates on a cost recovery basis without General Fund support and directly bills the user agencies according to pre-established catalog prices.

The Surplus Property Bureau provides for a centralized Statewide distribution of federal and State surplus property to eligible State agencies, public and non-profit participants. The bureau operates under a plan approved by the Federal General Services Administration. Prices established for surplus property are determined in accordance with the approved operating plan.

Prices are adjusted each time a new purchase is made. Overhead and handling charges are reviewed several times a year to be sure they are covering the actual needs of the Bureau. Any over- or under-recovery is applied to the next billing.

#### DEPARTMENT OF ADMINISTRATION - Public Employees' Retirement System

The Public Employees' Retirement System (PERS) was created for the purpose of providing a retirement system consisting of retirement, disability, survivor and death benefits. Each agency within the State is required by law to pay into the system an amount equal to 6.417% of each employee's gross salary. Based on bi-annual actuarial reports the Legislature has the authority to adjust the rate of contributions.

The Public Employees Retirement Division administers the following other retirement plans. The information listed is the contributions required by law from the various agencies. Judges' - 6% of active judges' salary plus a percentage of district and Supreme court fees; Highway Patrolmen's - 16.57% of

active highway patrolmen's salary; Sheriffs' - contributes administrative expenses; Game Wardens' - 7.15% of active game wardens' salaries plus 100% of fines and forfeited bonds; Municipal Police Officers' - 14.04% of active policemen's salaries; Volunteer Firefighters' - 5% of fire insurance premium taxes; and Unified Firefighters' - 18% of annual compensation for all firemen.

DEPARTMENT OF ADMINISTRATION - Teachers' Retirement System

The Teachers' Retirement System was established to provide adequate retirement, disability, death and survivor benefits to teachers within the State of Montana. Based on bi-annual actuarial reports the Legislature has the authority to adjust the rate of contributions.

An employer's contribution to this program is 7.32% of the employee's gross income.

DEPARTMENT OF ADMINISTRATION - Tort Claims Division (Automobile Insurance)

The Tort Claims Division coordinates the payment of premiums for automobile insurance. Agencies are assessed the actual amount billed to the State by the insurance companies. Each automobile is assigned a commercial vehicle fleet rating. The insurance company is selected through a bidding process.

DEPARTMENT OF ADMINISTRATION - Tort Claims Division (Comprehensive Liability Insurance)

The Tort Claims Division administers the self-insurance program which provides comprehensive general liability for the State. The billing is based on a formula consisting of five separate factors, prepared by actuaries and reviewed by the Legislative Auditor.

DEPARTMENT OF HIGHWAYS - State Motor Pool

The State Motor Pool maintains a fleet of State-owned vehicles of various types in order to satisfy the transportation requirements of State agencies located in Helena. The billing rate is determined by: actual fleet operating

costs for the past rate period, anticipated increase/decrease in costs and past rate period loss/gain. Vehicles are billed at various rates determined by the type of vehicle used.

#### DEPARTMENT OF LABOR - Division of Workers' Compensation

The Division of Workers' Compensation is responsible for the enforcement of Montana's Workers' Compensation Act which includes industrial safety, rehabilitation of injured workers and compensation for injured and disabled workers. Direct billing rates on various categories of employees vary according to experience ratings.

#### OFFICE OF THE LEGISLATIVE AUDITOR

The Office of the Legislative Auditor is charged with performing financial audits of all State agencies. Agencies have been appropriated sufficient State funds to enable the Legislative Auditor to bill each agency for their basic financial compliance audits. Agencies will also be billed for the costs of audits associated with federal funds. Costs are reported using actual hourly costs for each audit. Any over- or under-recovery is applied to the next year's expected expenditures and is included in that year's billing rate.

#### OFFICE OF THE ATTORNEY GENERAL

The Office of the Attorney General maintains an agency legal services program which provides a pool of attorneys from which State agencies may obtain legal services on a cost-reimbursement basis.

Agencies are billed an hourly rate based upon actual hours worked. The billing rate is consistently applied to all client agencies. They are also billed for any actual operating expenses directly attributable to an agency's request. Any over- or under-recovery is applied to the next year's expected expenditures and is included in that year's billing rate.

STATE AUDITORS OFFICE - CENTRAL PAYROLL

The Office of the State Auditor operates, maintains and controls the Central Payroll System for the State. It processes the payroll for all State agencies with the exception of university system units and vocational-technical centers. Currently non-general funded agencies are billed directly for Central Payroll costs. The methodology for billing agencies for payroll services is based on the actual number of warrants processed in fiscal year 1985. Having determined the number of warrants which are non-general funded on the cost per warrant for fiscal year 1987, a billable figure for each non-general funded agency is determined based on the State appropriations process. The billable amount will be greater than the amount actually billed for the current year; for this period, the State will under-recover the amount it is due.
